Building community information sharing for Mt Alexander's cycling community

Castlemaine Maryborough Rail Trail Inc is the recipient of a Mt Alexander Shire Community Grant of $800. We have used the funds, plus some, and have purchased a data projector and additional equipment for use by the five cycling groups in the shire.

Access to the equipment

- If your group wishes to use the projector, please email Steve Foskey and arrange for pick up and drop off.

- steve@cmrailtrail.org.au

- Note, there is a $15 fee payable prior to or on pick up to cover running costs.

for some topics - involving multiple ideas such as cycling policy, implementation stages, or maps, a data projector is essential

Beneficiaries

- Castlemaine Maryborough Rail Trail
- Rocky Riders
- Cycle Safe Castlemaine
- Mt Alexander Cycling
- Castlemaine Cycling Club

Equipment

Epson EB-W06 projector

Tripod stand

Carry bag

Building community information sharing for Mt Alexander's cycling community

CMRT have obtained funding for a Data Projector that can be shared among Castlemaine's five (5) major cycling groups.
Using technology to present plans and policies that affect cyclists is crucial for the development of Mt Alexander's broad and active cycling community.

The direct beneficiaries of the shared data projector will be the five cycling groups in Mt Alexander - CMRT, Mt Alexander Cycling, Castlemaine Cycling, Cycling Safe Castlemaine, and Rocky Riders. More specifically, it will benefit their hundreds of members and the wider supporter bases which these groups comprise across the Shire. Ready access to a reliable data projector is needed by all these groups in order to make presentations to their members, supporters and potential sponsors from time-to-time. Their needs will amplify over the next 2-3 years as important council and government policy impacts cyclists locally.
